

# THE FINAL VOLUME\* OF THE SERIES: “SHIPWRECKS AND THEIR COINS”

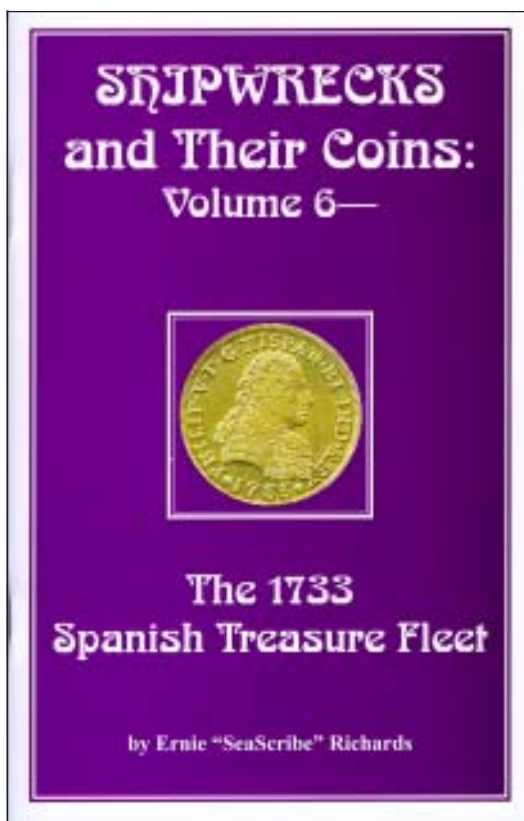

(\*Unless a NEW vessel turns up with a large population of study material!)

In SIX Volumes of Text, Tables, Charts, and Graphics We Have Focused on what a Collector of Cobs, a Coin Dealer, or a Shipwreck Enthusiast should know about Shipwrecks during the Age of European Expansion ... and the Coins that They yield. From the “cobbiest” of Issues stamped out in Copper, Silver or Gold, we have faithfully studied the Progression to —NOW— the Final Steps to the “Transitional” Coins which shaped the World’s Economy from 1732 onward ... based on what Divers of Today have recovered from Salvage Operations of Headline-News Proportions!

VOLUME SIX of SIX, *SHIPWRECKS and THEIR COINS: The 1733 Spanish Silver Fleet*, is the latest and last in the series to be released. It is in stock as of the 10th of April, 2014.

A very focused work, this book concerns the history of the large silver shipment of 1733 and, especially, the wrecking of nearly the entire fleet on the coral islets known as the Florida Keys. Included in the work is a brief history of the Spanish King who lost this fleet and others during his two reigns, the European wars which, perhaps, contributed to these losses, and the global events leading to and resulting from them.

These six “primer-plus” booklets are the product of nearly five decades of diving the wrecks, researching their histories, and studying their treasures. The information gathered —and the silver, gold and copper coins studied— have been described in many articles, books, and magazines, as well as being photographed and sketched by the author, and is now at your fingertips for ready reference ...

**SHIPWRECKS AND THEIR COINS: VOLUME 6—*The 1733 Spanish Treasure Fleet***, by Ernie “SeaScribe” Richards. EN RADA Publications, 2014, ISBN: 978-0-9744705-6-6. 48 pages, 5.5” x 8.5” format. Color cover. Maps, Photos, Table of Contents, Index, and References. **COST: \$10.00 US, postage \$1.50 (1/C) --or-- \$5.60 (Prio.) in the US.** Order from En Rada Publications, P. O. Box 1698, W. Palm Beach, FL 33402-1698. **Vol. 6 in stock as of 10 April 2014. Book & Coin Dealers (and their Clubs): Discount Schedule Inquiries INVITED!**

or for addition to your 1733 Spanish Silver Fleet or general shipwreck library. In every volume of 48 5.5”x 8.5” pages, you will be exposed to the hardships of the days of sail, the terror of vicious hurricanes and being shipwrecked in a hostile land, and the joy of —today— finding or collecting a piece of this period of history.

Every ship, or fleet of ships, is thoroughly described, down to their names as best as can be determined to date. A relation of their wrecking and the precious cargos they carried follows, then a detailed study of the coins and their cryptic devices and inscriptions is conducted — accented with an informative array of sketches and photographs.

NOTE: Each of these booklets is a stand-alone product, designed as a study guide for ships and coins of a specific shipping tragedy in the Americas ... and elsewhere in the World. Some material in each book is similar to that in the others, though tailored to the title subject. They are *ESPECIALLY* useful as a “go-with” for that “treasured” coin in your collection!
